

Apart from 2 of these vehicles which have been parked for a month, the remainder have not moved between 1 month and 1 year.

The side of the road is a mess with mud (dried out mud), weeds, debris and is never able to be cleaned due to the non-movement of these vehicles.

The proposal proposed TRO will not impact employees from parking. The current situation is dangerous for pedestrians and cyclists and those employees that use the area where cars are currently dumped for access to and from buildings including fire evacuation procedures.
